Malvin AI Tech
Career Transformation Academy

Executive Delivery Track

AI-Powered Scrum Master & Product Leadership

⚡ Lead Agile teams, master product delivery, and accelerate output using GenAI.

The modern tech industry is no longer hiring traditional coordinators — organizations demand high-impact leaders who combine rigorous Agile delivery with modern AI workflows. Malvin AI Tech equips you to master Scrum, SAFe, and Product Ownership while streamlining documentation, backlog refinement, and sprint reporting using practical GenAI tools.

YOUR ROADMAP AT A GLANCE

Week 1
Agile & Scrum Foundations

Week 2
Enterprise Scaling (SAFe, Kanban & Jira)

Week 3
Product Ownership & AI Augmentation

Week 4
Release Execution & Career Launch

Foundations of Agile & Scrum Frameworks — WEEK 1

- Core values, empirical pillars, and modern implementation of the Scrum Guide
- Software Development Life Cycle (SDLC) and Product Development Life Cycle (PDLC)
- Scrum accountabilities: The evolving role of the Scrum Master vs. Product Owner
- Facilitating high-impact ceremonies: Sprint Planning, Daily Standups, Reviews & Retrospectives

Advanced Scaling & Enterprise Frameworks (SAFe & Kanban) — WEEK 2

- Scaling Scrum across enterprise teams using Scaled Agile Framework (SAFe) and PI Planning
- Kanban principles, Work-in-Progress (WIP) limits, and flow metrics
- Practical tooling administration with advanced Jira and Confluence
- Identifying, mapping, and mitigating cross-team dependencies and delivery risks

Product Ownership, Backlog Refinement & AI Augmentation — WEEK 3

- Product ownership execution: Translating business vision into epics and sprint-ready user stories
- Product ownership strategy and prioritization models (RICE, MoSCoW, WSJF)
- AI in Agile Delivery: Hands-on integration of LLMs (ChatGPT, Claude, Jira AI) to draft user stories, PRDs, and acceptance criteria
- Workflow Automation: Using AI tools to synthesize sprint retrospective feedback, generate action items, and draft release notes

Release Management, Career Optimization & Final Evaluation — WEEK 4

- Release management, CI/CD pipelines, and testing strategies
- Live simulated Scrum ceremonies: Running backlog refinement, sprint reviews, and conflict resolution
- Real-world situational interview preparation, resume remodeling, and LinkedIn optimization

WHAT'S INCLUDED

- ✓ Live instructor-led training with active enterprise practitioners
- ✓ 100% job support: ATS resume optimization, LinkedIn branding, and interview coaching
- ✓ Ready-to-use Jira board templates, sprint ceremony checklists, and PRD frameworks
- ✓ Lifetime post-job support and community access
